# Li Chen 陳力

lichen@gatech.edu +1 (404)384-5451 (mobile)

#### Education

Georgia Institute of Technology, Atlanta, GA, US

Aug 2019 - Dec 2022 (Expected)

- Ph.D. in Algorithms, Combinatorics and Optimization (ACO)/ Computer Science
- Advisor: Dr. Richard Peng
- G.P.A. 4.0/4.0

#### National Taiwan University, Taipei, Taiwan

Sep 2014 - Jul 2018

Jun 2017 - Jan 2019

- B.S. in Computer Science and Information Engineering (CSIE)
- Overall G.P.A. 4.20/4.30, Major G.P.A. 4.29/4.30, Rank: 2/103

#### Research Interest

Algorithms and data structures. Specifically, designing fast algorithms for large problem instances.

#### **Publication**

- Li Chen, Rasmus Kyng, Yang P. Liu, Richard Peng, Maximilian Probst Gutenberg, Sushant Sachdeva. Maximum Flow and Minimum-Cost Flow in Almost-Linear Time. Manuscript. (arxiv:2203.00671)
- Li Chen, Richard Peng, Di Wang.  $\ell_2$ -norm Flow Diffusion in Near-Linear Time. In FOCS 2021. (arxiv:2105.14629)
- Li Chen, Gramoz Goranci, Monika Henzinger, Richard Peng and Thatchaphol Saranurak. Fast Dynamic Cuts, Distances and Effective Resistances via Vertex Sparsifiers. In FOCS 2020. (arxiv:2005.02368)

#### **Awards and Honors**

| 2nd place, ICPC North America Championship                                          | 2020            |
|-------------------------------------------------------------------------------------|-----------------|
| Champion, ICPC Southeast USA Regional                                               | 2019            |
| Fourteenth Place, ACM ICPC World Finals                                             | 2018            |
| Champion, ACM ICPC Asia Hualien Regional                                            | 2017            |
| Champion, National Collegiate Programming Contest of Taiwan                         | 2014-2015, 2017 |
| Presidential Award (awarded to students ranking top 5%), National Taiwan University | 2014-2015       |
| Bronze Medalist, International Olympiad in Informatics                              | 2013            |
|                                                                                     |                 |

### **Scholarships**

| Government Scholarship to Study Abroad, Ministry of Education, Taiwan | 2020 |
|-----------------------------------------------------------------------|------|
| IDEaS and TRIAD Research Scholarship, Georgia Tech                    | 2020 |

## Talks

| diks                                                     |          |
|----------------------------------------------------------|----------|
| Maximum Flow and Minimum-Cost Flow in Almost-Linear Time |          |
| - Theory Lunch, University of Southern California        | Apr~2022 |
| - Theory Seminar, University of Washington               | Apr~2022 |
| - Theory Seminar, Stanford University                    | Mar~2022 |
| $\ell_2$ -norm Flow Diffusion in Near-Linear Time        |          |
| - FOCS 2021, Virtual                                     | Feb 2022 |
| - ACO Student Seminar, Georgia Tech                      | Nov 2021 |

#### Experience

| Software Engineering Intern, Google, Kirkland, WA | Jul 2018 - Sep 2018 |
|---------------------------------------------------|---------------------|
| - Worked on Search Ads 360 data pipeline.         |                     |

Research Assistant, National Taiwan University, Taipei, Taiwan,

- Studying various 1st order methods for large-scale logistic regression. Focusing on their competitive performance on CTR (Click-Through-Rate) prediction task.
  - Advisor: Prof. Chih-Jen Lin

Research Assistant, National Taiwan University, Taipei, Taiwan,

Jul 2016 - Jul 2018

- Worked on various fundamental problems on  $planar\ graphs$ , such as minimum st cut and shortest non-crossing paths.
- Obtained an  $O(n \log \log n)$ -time algorithm for the shortest non-crossing paths problem on planar graphs. This improves over the  $O(n \log n)$ -bound obtained 2 decades ago. A similar result was obtained independently in Alex Steiger's master's thesis. (link: https://www.ideals.illinois.edu/handle/2142/98345).
  - Advisor: Prof. Hsueh-I Lu

Software Engineering Intern, Mixerbox, Taipei, Taiwan

Apr 2017 - Jul 2017, Sep 2017 - Feb 2018

- Worked on content generation of the landing page and artist pages of the music app Mixerbox by machine learning tools. Since the app has an enormous number of users (over 100 million downloads and 1 million daily active users), we designed efficient methods to do the job.

#### Quantitative Research Intern, WorldQuant, Taipei, Taiwan

Aug 2017 - Sep 2017

- Developed quantitative financial models using a stock market simulation system (WebSim).

#### Software Engineering Intern, Google, Taipei, Taiwan

Jul 2016 - Sep 2016

- Worked on Android's boot loader. Speed up an essential procedure to gather hardware information in boot loader. More details: https://source.android.com/devices/architecture/dto/optimize

Network Management Group, National Taiwan University, Taipei, Taiwan

Feb 2015 - Aug 2017

- Assisted in managing and improving the network environment of CSIE department in NTU which has hundreds of users per day.
  - Advisor: Prof. Hsin-Mu Tsai

## Teaching Experience

Teaching Assistant, Advanced Algorithms (CS 4540), Georgia Tech

Teaching Assistant, Automata and Complexity Theory (CS 4510), Georgia Tech

Spring 2020

Teaching Assistant, Algorithm Design and Analysis, National Taiwan University

Fall 2018

Teaching Assistant, Data Structure and Algorithm, National Taiwan University

Spring 2018

- Held and designed educational activities for students to familiarize with course material.

Lecturer, IOIcamp, National Taiwan University

Winter 2016, 2017

- A training camp for high school and college students on competitive programming.
- Taught advanced data structures and efficient polynomial operations.

#### Lecturer, Sprout, National Taiwan University

Spring 2015, 2016

- A long-term program teaching talented high school students computer science.
- Taught basic C/C++ and Python programming.

### Synergistic Activity

| Judging the ICPC Taipei Regional Contest, National Taiwan University                   | Fall 2018   |
|----------------------------------------------------------------------------------------|-------------|
| Organizing a stand for LIBSVM at Future Tech Exhibition, Taipei World Trade Center     | Winter 2017 |
| Judging the Taiwanese team selection contest for International Olympiad in Informatics | Spring 2015 |

#### **Proficient Skills**

## **Programming Languages**

\* C/C++, Java, Python, Haskell, Javascript, LATEX
